# HÄFELE

Häfele is an internationally organized family owned and operated business with headquarters in Nagold, Germany. It was founded in 1923 and today serves the furniture industry, architects, planners, cabinet makers/joiners as well as dealers in over 150 countries.

Häfele began its business 96 years ago by Adolf Häfele, a joinery and carpentry specialized, who formed the business from a small hardware products store.

The business has grown from a small hardware products store to more than 150 subsidiaries, sales offices and distributors worldwide. We are the market leader of furniture fittings, architectural hardware, kitchen and sanitary fittings, home appliances, lighting and electronic access control systems.

Häfele (Thailand) Co. Ltd. is one of the subsidiaries of the Häfele Holding GmbH, which was established in 1994 to support the market growth of furniture fittings and architectural hardware along with top-class alliances in the business field of construction, furniture and property trading as well with trading partners and dealers in Thailand. Häfele is providing hardware,

furniture fittings, home appliances, kitchen and sanitary fittings with German standard for the variety requirements of all our customers. Furthermore - to conform to the policy of the Häfele Headquarter in Germany - we set the main focus of the quality improvement and development in every aspect of our business operation, products, and employees.

# HÄFELE KITCHEN DESIGN CONTEST

From the winners of the HAFELE Kitchen Design Award 2019  
by presenting the Heritage Concept  
Luxury & compact kitchens inspired by  
floating markets and northeast way of life.

# HEART OF THAI, HEART OF RIVER

## DESIGNERS

Chanon Jadtanim, Nachanoke Register

**DESIGN CONCEPT:** Remembering the former Thai Culture, the unique design focused on Kitchen Island shaped like a boat. Do you remember the most core area and center of former Thai culture were the "Floating Market"? The heart of historical living became the center of family life - the Kitchen. The place where all family members come together to communicate their thoughts, talk, and eat in a homely atmosphere.

**DETAILS OF DESIGN:** White ATTICA marble look quartz surface from Caesarstone is combined with copper and stainless steel. The flowing stainless steel structure let feel like a quiet paddling supported by the smooth sliding of FRONTINO HAWA fittings, ALTO-S drawer running systems, and gallery rail organization.

The dark cherry wood of the cabinet incarnated distinctive a classic ancient Thai house, completed by a nostalgic style home appliance set from Bertazzoni which includes a combi-microwave oven, warming drawer, and other functions alongside with an installed cooker hob and cooker hood made of stainless steel from the same exclusive Italian brand. The ETAGON kitchen sink is supplemented by the pull-out spray LIVIA-S Faucet, both from BLANCO. The kitchen cabinet organization could be completed with various functional Kesseböhmer cabinet wire wares.

# HUAN KRUA BAAN HAO

## DESIGNERS

Kuntasorn Lonkoontod, Janit Suphannawong

**DESIGN CONCEPT:** This kitchen design was inspired by the Northeast kitchen style presented through open-air usability to maximize the cooking area and by using local materials for a green environment character. The natural mood and tones identify a typical hearty home of Northeast Thailand.

**DETAILS OF DESIGN:** Simply matching of natural wood and white tiles to develop a brighter and clearer looking area. The U-shape layout contains various specific details. The "Buttermilk" coloured quartz surface from Caesarstone matches perfectly to the farmhouse style kitchen sink PANOR from BLANCO. The tidy-looking corner area was created by installing different cabinet racks as well as the magic corner fitting from Kesseböhmer. As a real cooking solution was selected a gas hob and cooker hood from Bertazzoni. The fresh and healthy storage of food, vegetables, and fruits could be guaranteed with a built-in LIEBHERR fridge.

## Combi - Microwave Oven

### Bertazzoni Modern Series

The 60 x 45 cm combi-steam oven has 7 functions on two levels, a cavity capacity of 38 liters, and is made of stainless steel. The oven is big enough to cater to a whole family and combines a traditional with a convection oven including grill functions for fast and healthy cooking. It's controlled by knobs and a full touch TFT display and includes a high-class door with a soft closing mechanism.

BERTAZZONI

## Warming Drawer

Bertazzoni Modern Series

The 60 x 12 cm warming drawer maintains a load-bearing capacity of 25 kg. The drawer heats to a consistent temperature range between 30-85°C keeping dishes at serving temperature. It comes with a soft-motion push/pull function and full-extension runners. Available in stainless steel, black matt, zinc, and copper surfaces.

BERTAZZONI

## BERTAZZONI

### Electric Built-in Oven with LCD display

#### The Bertazzoni Modern Series

The 60 cm electric built-in oven has a best-in-class cavity capacity of 76 liters. With 11 functions, it's ideal for mid to low-temperature cooking, like baking or slow cooking meals as e.g. casseroles. The non-convection mode is excellent for baking cakes, while the fan-assisted mode ensures even heat distribution on all five levels for roasting and cooking with no flavour crossover. The oven is easily managed with the full touch black glass control panel with an LCD display. The soft-open and close door is safe and easy to use, fitted with a smart glass-finish handle. The door is triple-glazed for safety and energy efficiency. Available in stainless steel and black.

# BLANCO

---

## Kitchen Sink

The innovative BLANCO ETAGON system concept offers groundbreaking versatility at the sink. This needs-oriented tiered sink is remarkable for its integrated step, which creates a highly practical additional level. Positioned on the step, the ETAGON rails offer almost unlimited possible uses. For instance, they are ideal for holding pans or steamers, into which you can transfer vegetables straight from the cutting board above. The large bowl also makes it easy to clean cumbersome kitchenware such as baking trays. BLANCO ETAGON is available in Stainless steel, Silgranit and Ceramic. The range is impressive not only for its superlative functionality, but also its top-quality equipment. The C-overflow and InFino drain system are elegantly integrated and particularly easy to clean thanks to the stainless steel material. The optional accessories include cutting boards and practical multifunctional colanders.

BLANCO

### Kitchen Mixer Tap

If you want to add real design accents to your kitchen, then head straight for the BLANCO LIVIA. Opt for the retro-look mixer tap for a fresh take on the country-house style, ideally in the brushed brass finish. Alternatively, you could enhance your industrial loft-look interior with BLANCO LIVIA in dark manganese. And if you fancy something a bit more modern, go for the chrome version. BLANCO LIVIA is as practical as it is diverse: As a mixer tap that forms part of overall system design, a matching soap dispenser and a pop-up drain button are also available. Like the mixer tap, these parts feature beautiful decorative elements, especially at the transitions.

# HAWA

## **Pivot & Slide-in HAWA Concepta,**

a new dimension in furniture design – the door can be pivoted by 90° and slide into the side of furniture cabinets or wall niches. This opens up completely new perspectives for cabinets, floor to ceiling constructions, storage solutions even walk-in room. Because the doors stored away at the side only take up a minimal niche width in the cabinet interior. The solution also impressed with its intelligent technology. It fulfils creative design wishes with a wide range of design options, profiles and handles. And the HAWA Concepta doesn't throw you a curve during installation, either: Apart from drill holes for positioning and concealed hinges, no other processing is required, since the components are screwed to the intermediate panel and are accessible from the front at all times for adjustment.

### Flush-fitted sliding doors - Eku Frontino,

is an ultra-modern sliding door fitting which does a lot of things right. It opens doors with a unique, ergonomic type of sliding movement, and closes them flush fitting for a completely harmonious front view. It is not bound to standard dimension, but can be flexible adapted to the required furniture dimension. It speeds up the installation time and eliminates error sources because of its high degree of pre-assembly. And it opens up 100% of the space in the furniture, which is a major advantage in the installation of internal drawers, for example.

## Fridge & Freezer

Lasting freshness has a name: BioFresh. It's no secret that the nutrients from fresh food unlock the body's ability to naturally heal and flourish. What's more, food is at its most flavorful when fresh. So, the last thing a homeowner wants is a fridge that allows food to age quickly, depriving it of those two essential qualities: nutrients and flavor. Not all foods require the same ambient temperature and humidity conditions for optimal storage, that's where the patented BioFresh technology in Liebherr fridges out-performs its conventional counterpart – by slowing down aging process. Whether for fruit, vegetables, fish, meat or milk products, Liebherr BioFresh drawers provide optimum storage conditions. These extend shelf life and preserved nutrients, such as vitamins and minerals, as well as aroma and appearance for longer than conventional fridge compartments. In the HydroSafe, fruit and vegetables are optimally stored at a higher humidity level. Precision electronics carefully maintain the HydroSafe temperature at just over 0°C, preventing any frost developing on the food. Meanwhile, low humidity and a temperature just above freezing are ideal for storing meat, fish and dairy products. The BioFresh DrySafe maintains this environment at all times.

LIEBHERR

LIEBHERR

### **Wine-Delight**

Wine connoisseurs are huge individualists with a considerable range of requirements when storing their fine wines: somewhat to ensure that their premium-quality wines are always stored at the perfect drinking temperature, ready to be enjoyed with friends at any time; others are dedicated to collecting wines and need ideal storage conditions for a large stock; and some what the best both worlds – a large wine collection that is ready to serve. Liebherr has just the right wine storage cabinet whatever your collection size or requirements – and naturally, you're guaranteed premium quality.

## Kitchen Sink

Farmhouse-style sinks are a reminder of times gone by, when the kitchen also served as a place to bathe and a washhouse. Crockery, children and clothing were all washed in the deep sink, even if they serve quite a different purpose these days, such sinks have largely maintained their striking dimensions and appearance. A contemporary take on the classic, it looks great in modern kitchens, as well as in combination with features of country-house style. If you're looking to install a modern farmhouse-style sink in traditional ceramic in your kitchen, you're bound to find the color you need with BLANCO PANOR. The sink is impressive for its generous bowl capacity and offers lots of space for cleaning woks and baking trays with ease.

BLANCO

### Kitchen Tap

With playful ornamental details that go perfectly with sinks and kitchens in the current country-house style, BLANCO TERA features an impressive traditional design.

Experience the irresistible charm of TERA. This look comes in a choice of chrome or brushed brass. With its fully swiveling outlet, the classic 2-handle TERA kitchen mixer tap is more than a match for the requirements of the modern kitchen. Fans of an old-time look will appreciate the charm of this traditional design. Having one handle for cold water and another for warm creates a distinctive look that lends the sink a certain sophistication.

You turn both handles to get the water as warm or cold as you want it.

Adjust the temperature flexibly between hot and cold to set the temperature to the heat level you prefer.

## Sliding door cabinets

Closing and opening the food pantry is Thai's practical way of the daily cooking journey. It doesn't matter whether you are installing one, two, or three wooden doors with your furniture, whether these doors run inside or in front of the cabinet. The ideal of the EKV Clipo version is present for all situations. Precisely coordinate with the door weight of 16, 26, or 36 kg and suitable with soft-closing devices for any heaviness class. This increases the degree of sliding convenience significantly.

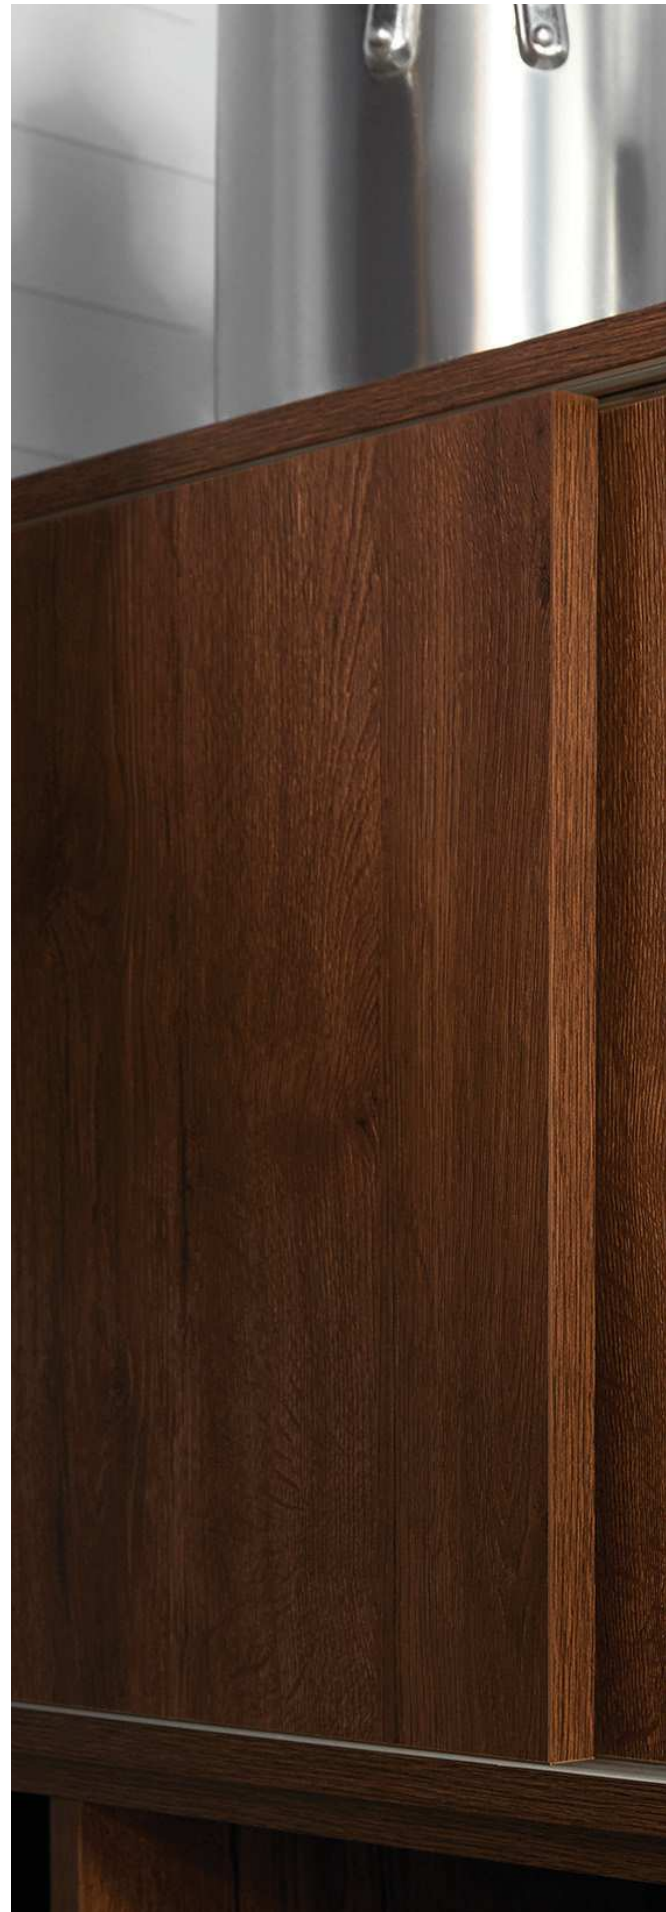

## HAWA

**INSTALLATION BENEFITS:** You can choose from different kinds of installation like gluing, screw-on, caulking, groove, or surface mounting of the running tracks. Door leaves and running gears are connected by a tool-less clip-on system as well as the height adjustment is a child's play with well-tried and tool-less thumbwheel adjusting.

---

## Fridge & Freezer

For many people, a tasty meal is a perfect way to unwind in the evening. It replenishes their energy reserves and the very act of cooking actually helps them to relax after a long, hard day. Needless to say, whether cooking for one or the entire family, fresh ingredients are prerequisites for any nourishing and flavorful meal. Only fresh food contains all the vitamins, minerals and trace elements that our bodies need on a daily basis. Not only is it important to buy produce at its freshest, but it is also essential to store it properly once you get home.

## LIEBHERR

Nowadays, it's easy to enjoy fresh, nutritious food – especially thanks to Liebherr's premium-quality appliances: they combine stylish design with a wealth of innovative solutions to enhance your freshness experience and enjoyment on a daily basis. If you're looking for ultra longlasting freshness, BioFresh is the perfect answer; and our professional No-Frost technology provides superb freezing amenity. Liebherr also makes it easier than ever to save energy: featuring advanced refrigeration technology, our appliances are impressively energy efficient.

# KESSEBÖHMER

---

## “Magic Corner”

The name says it all. This has less to do with magic than with cleverness and technical refinement! Magic Corner is capable of housing two complete cabinet units beside each other in only one corner cabinet. With one movement, the intelligent sliding technology simultaneously drives the front and the pull-out rack into the user's viewing and access area. As one would expect of Kesseböhmer, this occurs in a flowing, silent train of motion. Closing of the cabinet nearly functions by itself. A small push is sufficient – then SoftSTOPP takes care of closing. Quiet and smooth.

KESSEBÖHMER

# CAESARSTONE

---

## “Buttermilk”

One finish of the Classico Series - soft, warm, and with a natural aesthetic. Combining several creamy tones with a unique blend of earthy tones and delicate infused pattern. With all the stain, scratch and water-resistant qualities of quartz, Caesarstone is ideal for benchtops, splashbacks, wall linings, and furniture tops.

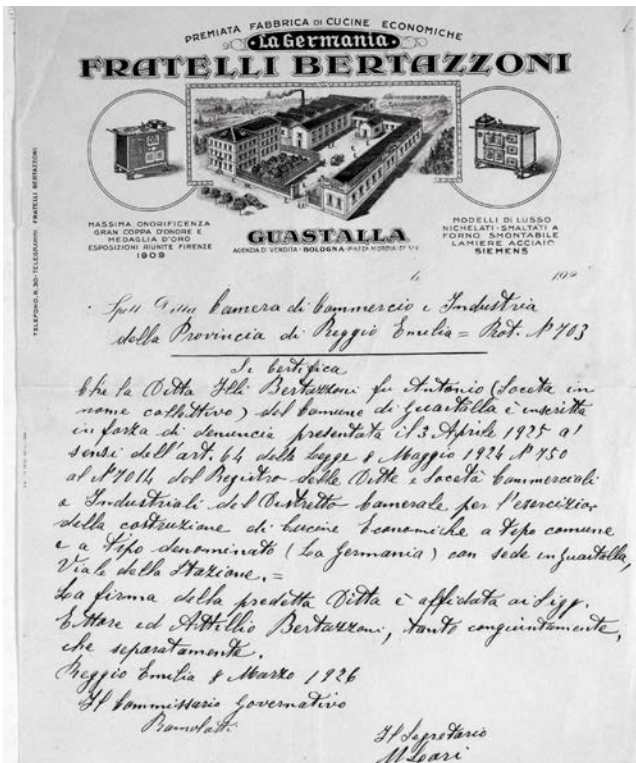

PREMIUM KITCHEN BRAND

# BERTAZZONI

Bertazzoni cooking machines have been available for over a century, building a reputation based on the quality of engineering and a passion for food.

Bertazzoni products allow you to take the finest ingredients and cook them with precision, flair and flavour. The best-in-class technology and a unique aesthetic approach display true Italian design flair. As a result, Bertazzoni machines help create beautiful kitchens, where the sum of the parts is greater than the whole. Bertazzoni's unique approach brings together industrial production methods and engineering skills with special finishes inspired by Italian craftsmanship. The Professional Series offers iconic Bertazzoni style for amateur chefs, with finishes based on the process developed for Italian luxury sports cars.

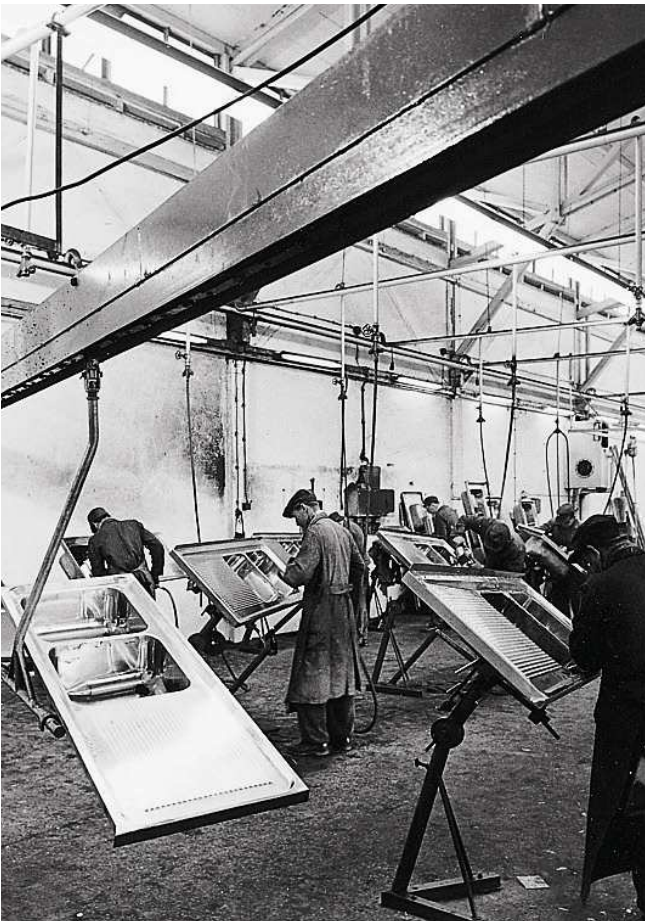

Family. Food. Engineering are those words define the brand. Inspired by his discovery of the railway stove, Francesco and his son Antonio set about adapting it to their own purposes. So they began producing cooking stoves for local use around Guastalla where they had their workshop – soon their stoves were being sold throughout Italy. In 1909 the next generation, headed by Napoleone Bertazzoni, built a factory next to the railway station.

PREMIUM KITCHEN BRAND

# BLANCO

BLANCO is the biggest German manufacturer of sinks and the market leader for kitchen mixer taps in Germany.

For over 90 years, BLANCO has been delighting its customers with quality and with the German reliability that is appreciated all over the world. It determines the choice of material and the processing methods for the products and the development. More comfort and safety in the house: the unbeatable ease of care and hygiene of SILGRANIT™ PuraDur™ sinks delight customers just as much as the certified mixer taps do. Innovative solutions and well-planned system concepts make BLANCO a reliable partner for retailers.

BLANCO demonstrates responsibility towards our most important food – drinking water. We use approved materials in water-bearing components and voluntarily undergo regular testing by the DVGW (the certification centre of the German Association of Gas and Water Supplies). Sustainability is not a passing phenomenon.

For over 20 years, it has been a firm part of the corporate culture.

PREMIUM KITCHEN BRAND

# CAESARSTONE

Caesarstone is the first to develop a concrete-like finish for quartz surface, a departure from the usual polished surface, showcasing its dedication to innovation.

In the mid-1980s, Kibbutz Sdot-Yam sent the CEO of its faltering terrazzo tile factory to find the next big thing in flooring material. Upon his return to the kibbutz, he shared his ideas and experience with residents of the then fishing and farming community and conceived the revolutionary idea of using crushed quartz combined with polymer resins and pigments for a surfacing product, which formed what we know today as Caesarstone.

From the beginning, the kibbutz origin of the product assured it remained sustainable, and Caesarstone became the first quartz manufacturing company to have received the ISO 14001 certification, recognising competence in environmental management and performance.

Today, Caesarstone has 3 state-of-the-art manufacturing sites in Israel and US, and remains dominant in the position, through continuous investment and innovation, extensive research and development, highly trained personnel and an advanced market infrastructure. For more than 30 years, Caesarstone has set new standards in innovation and craftsmanship and continues to set the trends in the industry.

PREMIUM KITCHEN BRAND

# LIEBHERR

Fridge & Freezer

Liebherr is a third-generation, family-owned company founded by Hans Liebherr in 1949 with the creation of the first ever tower crane. With over 65 years of success, Liebherr has become synonymous with the equipment needed to build homes and businesses, as well as the appliances within them.

One of the world's largest manufacturers of construction machinery, Liebherr has expanded to eleven divisions with a wide array of product ranges, including earthmoving, mining, mobile cranes, tower cranes, concrete technology, maritime cranes, aerospace and transportation systems, machine tools and automation systems, components, hotels and domestic appliances.

The company currently employs over 44,000 persons in more than 130 companies in over 50 countries worldwide. Liebherr Appliances is Europe's largest privately owned manufacturer of fridges and freezers for residential and commercial use, with an annual production of more than 2.1 million units.

PREMIUM KITCHEN BRAND

# KESSEBÖHMER

The name Kesseböhmer stands for innovative solutions and a powerful blend of design, function and quality.

Today the Kesseböhmer group is still owned and managed by the current generation of the founding family.

Our core competence is in metal processing. We work with wire, flat band and tubing and our products are finished in our in-house electroplating and powder-coating facilities. Strong customer orientation has helped us to achieve and maintain our position as the leading supplier of functional fittings for kitchen units.

A kitchen is far more than just the room you cook in. A kitchen today, is designed in a more open and generous manner; after all, it should be an open area for all family and friends to enjoy.

No wonder the kitchen has evolved to become an indicator of good taste and style. Not only is it important to incorporate taste and sophisticated kitchen fittings into kitchen design, but most of all, functionality and quality. Kesseböhmer products enable substantially more storage space and overview in a manner to enthrall

every user. Here opening a cabinet door becomes an emotional experience. You will see this for yourself!

After all, a demanding design and high quality finish represent the main advantage Kesseböhmer can refer to in excess of the ingenious functionality. Add to that optimal space utilization, Kesseböhmer provides for substantially more space in the cabinets compared to most traditional systems.

Last but not least, the name Kesseböhmer guarantees unparalleled user comfort and an unmatched quality, setting the standards worldwide.

Seasoned ideas. In a kitchen, form follows function, follows fashion – and vice versa. Those who enjoy eating good food, cooking and entertaining, expect far more from their kitchen than just an oven, a sink and a fridge. People spend a lot of time in their kitchens and they now fill a large space in people's homes. A dream kitchen is an investment in a higher quality of life.
